MATH

Module 6 continues, students are building upon their work with arrays to develop the spatial reasoning skills they need in preparation for Grade 3's area content. They use same-size square tiles to tile a rectangle with no gaps or overlaps.

Word Study

New Concepts :

- Sounds of oi and oy
- Sounds of oa, oe, and ow

Study Skills

Let your child know that it's OK to ask teachers for help and that you're available, too.

Social Studies

This month we continue to explore how people depend on and modify the environment. We will be learning about community helpers and the goods and services they provide for the community in which they work along with focusing on the challenge of meeting needs and wants within communities.

ELA

Our focus in ELA will switch from nonfiction to realistic fiction. The students will be reading and responding to realistic fiction texts throughout April. We'll be integrating social studies topics into our ELA block as well.

Reminder: Students should be reading for at least **20-30** minutes each night.
